1. COMPANY OVERVIEW

SAMS Compliance Solutions is a professional compliance and business advisory company focused on helping organisations strengthen their systems, meet applicable requirements and improve business performance.

We provide practical, client-focused solutions designed to help businesses understand their compliance responsibilities and build effective management systems. Our approach combines professional guidance, implementation support, documentation and continuous improvement.

Our objective is simple: to make compliance understandable, practical and valuable to our clients.

OUR VISION

To become a trusted leader in compliance and business advisory solutions, helping organisations achieve sustainable growth and operational excellence.

OUR MISSION

To provide reliable, professional and practical compliance solutions that enable businesses to meet requirements, improve their systems and achieve their strategic objectives.

OUR VALUES

Integrity	We conduct our work honestly, professionally and responsibly.
Excellence	We aim for high-quality service and continuous improvement.
Client Focus	We listen to our clients and tailor solutions to their needs.
Confidentiality	We handle client information with professionalism and discretion.

2. OUR SERVICES

SAMS Compliance Solutions provides practical, implementation-focused support to help organisations establish, maintain and improve effective management systems.

ISO MANAGEMENT SYSTEM IMPLEMENTATION

End-to-end support including gap assessments, implementation planning, policy and procedure development, process mapping, documented information, implementation support, training and certification-readiness preparation.

ISO 9001 – QUALITY MANAGEMENT

Support to establish a quality management system that strengthens process consistency, customer focus, risk-based thinking, performance monitoring, corrective action and continual improvement.

ISO 14001 – ENVIRONMENTAL MANAGEMENT

Support for environmental management systems, including identification of environmental aspects and impacts, operational controls, objectives, monitoring and continual improvement.

ISO 45001 – OCCUPATIONAL HEALTH & SAFETY

Support to develop and maintain occupational health and safety systems, including hazard and risk management, operational controls, worker awareness, incident-related processes and continual improvement.

ISO 27001 – INFORMATION SECURITY

Support for information security management systems, including risk assessment, control implementation, policies and procedures, documented information, awareness and preparation for independent assessment.

ISO 27701 – PRIVACY INFORMATION MANAGEMENT

Support for privacy information management and integration of privacy-related controls and responsibilities with an information security management system.

B-BBEE CONSULTING

Practical advisory support to understand applicable B-BBEE requirements, identify improvement areas, organise supporting evidence and strengthen readiness for verification.

SKILLS DEVELOPMENT CONSULTING

Guidance on skills-development planning, supporting documentation and related compliance activities aligned to workforce and business objectives.

INTERNAL AUDITS, GAP ASSESSMENTS & READINESS

Structured reviews of processes and documented information to identify gaps, non-conformities and improvement opportunities, with practical recommendations for certification, verification or other assessments.

3. OUR APPROACH

We use a structured approach that allows clients to understand where they are, what needs to change and how to maintain improvements.

01

ASSESS

Review the organisation's current processes, documents and compliance position.

02

PLAN

Develop a practical implementation plan based on identified gaps and business objectives.

03

IMPLEMENT

Develop and implement required processes, documents, controls and supporting activities.

04

TRAIN

Help relevant employees understand their roles, responsibilities and system requirements.

05

MONITOR

Support internal checks, performance monitoring and corrective actions.

06

IMPROVE

Drive continual improvement and readiness for applicable assessments or verification.

4. INDUSTRIES WE SERVE

Our solutions can be adapted to organisations of different sizes and across various sectors, including:

- Construction & Engineering
- Security Services
- Manufacturing
- Information & Communication Technology
- Professional Services
- Facilities & Support Services
- Small & Medium Enterprises
- Other regulated or compliance-driven organisations

5. WHY CHOOSE SAMS?

Practical Solutions

We focus on solutions that can work in the client's real operating environment.

Professional Support

We work closely with management and employees throughout the implementation process.

Tailored Approach

We recognise that every organisation has different risks, resources and objectives.

Continuous Improvement

Our work is aimed at helping clients maintain and improve their systems over time.

6. OUR CLIENT COMMITMENT

Practical Solutions

We focus on solutions that can be understood, implemented and maintained within the client's real operating environment.

Tailored Support

We recognise that organisations differ in size, resources, risks, processes and objectives. Our support is adapted to the client's requirements.

Implementation Focus

Our work goes beyond documentation by supporting practical implementation, awareness, monitoring and continual improvement.

Professional & Confidential

We approach client engagements professionally and treat business information with appropriate confidentiality and discretion.

Continual Improvement

We help organisations identify gaps, address corrective actions and strengthen their systems over time.
